DETAILED ACTION

- II. Claim 7-22, drawn to a manufacturing method of a display device, classified in class 349, subclass 55.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the manufacturing method as claimed can be used to make a Plasma liquid crystal display screen.
